

VK-DMR Newsletter

Keep this new TG List as you might want to add a few of these new TG's into your DMR portable or Mobile unit.

New Talk Groups (TG) on our VK-DMR Network as follows

Please do not make up any new TG's as they will not be passed as we set the TG's in our C-Bridge (Gateway) that is passed to the rest of VK-DMR Network and to the World.

TG	TG Number		Time Slot	Destination
TG 1 WW	1		1	World Wide Calling

VK7 Region	50573		2	State Located Repeaters
VK8 Region	50583		2	State Located Repeaters

Some information on our VK-DMR TG to the left.

TG 113, 123 are User defined and this means you have to switch to this channel and Press your PTT for 1 second and this will switch the repeater you are using into User mode and your mate or other person you was talking to needs to do the same and both of you will be connected and not tie up all other repeaters in the Network.

TG 133 connects you to the USA Gateway ONLY, and it is the same for TG 143 to the UK Gateway and 153 to the South Pacific Gateway. 10 Minutes from the last PTT.
